It's a Family Sport!

Today's match at Tusco was the first match that my brother, Led McSlingin, and my boy, Buckaroo Tracks, joined my Dad, Moosetracks, and I on the Cowboy Range!

My Dad and I have been in SASS for about 20 years now.

It was so cool to have my brother and my boy join us for their first full matches!

Sadly, with my father's passing we need to liquidate some of his collection to cover his final expenses. The ammo listed are all factory loaded. I will not sell anyones reloads. Also no ammo will sell until the corresponding firearm is sold. Prices are not set in stone but keep in mind it's basically a fund raiser. If there's something you're interested act fast because once the expenses are covered nothing left will be available.

Thanks,
Turkey Flats Jack

Winchester 109543 24 12 Ga Side/Side Double Barrel
Blue

Winchester Model 24 SXS Shotgun. 2-3/4" chambers Full Choke and Modified. Mfg date: 1952. The Model 24 competes with the Stevens 311 and Savage/Fox Model B as an affordable, utility SXS and a total of over 116,200 were Mfgd. The Model 24 is a true hammerless gun, as opposed to having concealed hammers like most double guns, since it is striker fired. It was produced only as a field grade gun with blued receiver and barrels, wide 7/16" raised solid rib, smooth black walnut stock with lacquer finish, double triggers, and spring powered extractors that elevates the shells when the gun is opened. The forged steel receiver body of the Model 24 is rounded. The Model 24 was designed with two lumps, one centered beneath each barrel, leaving a tunnel of space between the two lumps. It has a clean breech face and is held closed by a single underbolt that engages a notch in the double barrel lumps. In the area between the 24's dual lumps is a cocking slide and the extractor. The Model 24 is about as wide through the breech and receiver as a SXS gun can be. The weight is about 7-1/2 pounds. It is a 12 Ga gun with 30" barrels. It measures 46-1/2" in overall length and has a 14-1/4" length of pull.

Approximate drop is 1-1/2" at comb and 2-1/2" at heel.

News & Notes

Six Stages

We shoot six stages at Tusco. A few people have told us that they drive a good distance to shoot at Tusco and would like to shoot as much as possible.

Obviously we only have room for five shooting bays. So what we do is shoot the first stage you start on twice. Consider it a warm up stage. Only five stages will be scored. You can take your best time on your first stage. If you don't want to shoot it twice you do not have to. This would provide more shooting for our shooters.

New SASS Magazine

With the new release of the SASS Quarterly Cowboy Chronicle, I once again would like to start collecting any unwanted issues of the magazine. We will use these for our promotional events, like our Tusco Long Riders' Day at Kames Sports. Please either black out or cut off your name and address or I will do it before they are passed out. Thank you!

Facebook Page

When you make a post about Tusco or share pictures on Facebook, include #TuscoLongRiders. Let everyone see what we are all about.

A little bit about us

Jim & I have always wanted a family of our own. Although we love our 5 fur kids, we long for a baby. After learning we were unable to conceive a child, Jim and I decided to pursue the adoption of a newborn. Adoption costs are astronomical (anywhere from 25k to 50k or higher) and although we were able to raise some with our savings, GoFundMe page, and church donations, we are still lacking the funds needed to apply for a match. We decided to take our love of crafting and open a side business to hopefully raise some more funds for our future family. Designs By Scamper is a tribute to our pup Scamper who passed away in 2015 from cancer.
